

PROTECTED. TOGETHER.

**VACCINATION IS EFFECTIVE AND SAFE
TO PREVENT INFLUENZA, COVID-19
AND ANY RELATED COMPLICATIONS**

The flu vaccine is free for children aged 6 months to 6 years, pregnant women, people over 60, or those who suffer from chronic diseases, as well as blood donors and essential service workers.

Both the influenza and COVID-19 vaccines can be given at the same time in one vaccination session. For additional information, please visit the regional portal:
